

**TERMS AND CONDITIONS FOR ADMISSION IN
THE DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
TEXAS A&M UNIVERSITY**

Admission to the University

Recommendation for admission is sent to the Office of Admissions for processing at the time the offer is made. Once the Office of Admissions has approved and processed the admission, you will receive an email with instructions on how to set up TAMU credentials. If you wish to attend Texas A&M University under this program, you must accept our offer of admission via the Manage Applications channel on the Applicant tab in Howdy at <https://howdy.tamu.edu>. **If you do not formally accept this offer in Howdy, your admission to this program will be cancelled.**

New Student Orientation Programs

International students are required to [check in with International Student Services](#) and receive [international student orientation](#). All new students must attend [The Graduate and Professional School orientation](#) and the Department of Computer Science and Engineering orientations. All new students with a teaching assistant offer must attend the university teaching assistant training. You will be notified via e-mail of the dates of these sessions.

Arrival on Campus

All incoming graduate students, especially international students, must arrive on campus well before the beginning of classes for their first semester in order to complete various activities, particularly check-in and orientation. As per current Homeland Security legislation, however, international students may not arrive more than 30 days prior to the beginning of a semester. When making plans to arrive, you should be aware that housing should be arranged well in advance and may not be available as early as you need to arrive. Living expenses prior to the semester are your responsibility. The department recommends that all new students, both domestic and international, visit the web site of <https://grad.tamu.edu/Prospective-Students/Student-Life-Resources/Student-Life>. The Department of Residence Life operates a hostel during August, to provide a temporary place to stay while students search for permanent housing.

Correspondence

Once you accept your offer, the Department of Computer Science and Engineering Graduate Advising office will correspond with you via mail and e-mail to send you required documents, additional information, and keep you informed of dates and events. **Be sure to keep your mailing and e-mail addresses up to date with the Department.**

College Station

Texas A&M University is located in College Station, Texas. The city name derived from the fact that when Texas A&M was the only public university in Texas, it was referred to as the "college." The train station located next to the university was referred to as the "college station." Eventually a city grew up around the university, taking the name College Station. In 2006, Money Magazine named College Station the most educated city in Texas, and College Station regularly appears on lists of the best places to live. College Station is roughly in the middle of the triangle formed by Houston, Austin and Dallas/Fort Worth. The metropolitan population is about 273,000. The cost of living is relatively low, and there are no state income taxes. Additional information about College Station can be found at https://en.wikipedia.org/wiki/College_Station,_Texas and <http://visit.cstx.gov>.
